The Quiet Collection game copy

Editable copy master • 2 November 2026

EDIT-01 | How to edit | Editorial
Edit the player-facing wording directly. Keep the IDs beside each entry so your changes can be matched back to the game. IDs, labels and status notes are editorial aids, not text shown to players.

EDIT-02 | Status key | Editorial
Existing = wording already present in the design, companion prompt or museum scene. Draft = new wording proposed for review. Dynamic = a runtime template or a bounded example of AI dialogue. Braces such as {specimen_name} are placeholders.

EDIT-03 | Scope | Editorial
This document covers entry, navigation, all eight questions and their reactions, the final choice, optional reflection, every result and alternative introduction, incomplete visits, saving and sharing, settings, errors, museum labels and Abraham’s dialogue. Most interface text remains planned rather than implemented.

EDIT-04 | Questions and result meaning | Editorial
You can rewrite freely. If an answer’s meaning changes, flag it for a scoring review; its hidden scoring is intentionally excluded from this copy document. AI-generated wording cannot be listed exhaustively, so editable templates, fixed fallbacks and voice guidance are included.

BRAND-01 | Museum name | Existing
The Quiet Collection

BRAND-02 | Quiz title | Existing
What museum specimen are you?

BRAND-03 | Floating central hall title | Existing
WHAT ARE YOU?

BRAND-04 | Short description, to be shown when the page loads | Draft
A natural history museum personality quiz.

Entry and introduction

ENTRY-01 | Opening paragraph | Existing
You don’t have a body. You don’t even really know what you are. What is this place..?

ENTRY-02 | Reassurance | Existing
Open your eyes. You Exist.

ENTRY-03 | Time and purpose | Existing
-

ENTRY-04 | Primary button | Existing
Enter the museum

ENTRY-05 | Alternative button | Existing
Use the step-by-step view

ENTRY-06 | Abraham introduction | Draft
Oh, hello! Here for an appraisal? I’m Abraham. What should I call you?

ENTRY-07 | Text entry field | Draft
Name input (or Item-09 if left empty)

ENTRY-08 | Skip introduction button | Draft
I’ve been here before…

ENTRY-09 | Abraham directions | Draft
The galleries are just through there. Start wherever you like! Keep your ticket handy so you can see where you’ve been.

ENTRY-10 | Optional ticket colour prompt | Draft
Choose a colour for your ticket.

ENTRY-11 | Colour help | Draft
Just for the ticket. This won’t affect your result.

ENTRY-12 | Colour choices | Draft
Moss green / Warm ivory / Burgundy / Midnight blue

ENTRY-13 | Skip colour button | Draft
Use the museum ticket

Movement and accessibility

MOVE-01 | Mobile movement hint | Draft
Tap to move closer. Drag to look around.

LOOK-07 | Q6 panel title | Draft
Same label, different view

Q1 Deep Time The small detail

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q1-INTRO | Abraham introduction | Draft
Come and have a look at this one. You can turn it round, too.

~~**Q1-LOOK | Optional inspection instruction | Draft**~~
~~Rotate the cast or select a detail. Looking around doesn't affect your answer.~~

q1 | Question | Existing
You have time for one closer look before moving on. What would you rather leave knowing?

q1-i | Choice A | Existing
How they worked out what this animal was.

q1-i-confirm | Confirmation after keeping this choice | Draft
The comparison overlay is open.

q1-i-evidence | Result evidence line | Existing
Chose the evidence behind an identification.

q1-c | Choice B | Existing
What survived from the original, and what was restored.

q1-c-confirm | Confirmation after keeping this choice | Draft
The original and restored areas are marked.

q1-c-evidence | Result evidence line | Existing
Wanted to distinguish retained material from later changes.

q1-a | Choice C | Existing
What I could notice before reading the explanation.

q1-a-confirm | Confirmation after keeping this choice | Draft
The explanation is folded away. You can open it whenever you like.

q1-a-evidence | Result evidence line | Existing
Chose space for a first-hand impression.

q1-r | Choice D | Existing
What different people noticed when they first saw it.

q1-r-confirm | Confirmation after keeping this choice | Draft
The three visitor observations are now beside the cast.

q1-r-evidence | Result evidence line | Existing
Wanted multiple perspectives on the same object.

Q2 Deep Time The missing piece

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q2-INTRO | Abraham introduction | Draft
There's a bit missing from this one. We've checked under the cabinet.

~~**Q2-LOOK | Optional inspection instruction | Draft**~~
~~Preview a display treatment by selecting it. You can change your mind before confirming.~~

q2 | Question | Existing
This skeleton is missing a piece. Which version would you rather encounter in the museum?

q2-i | Choice A | Existing
Show two possible reconstructions beside the gap. I want to compare them.

q2-i-confirm | Confirmation after keeping this choice | Draft
Both possible reconstructions are visible.

q2-i-evidence | Result evidence line | Existing
Preferred competing explanations to a single reconstruction.

q2-c | Choice B | Existing
Leave the gap visible. I want to see exactly what remains.

q2-c-confirm | Confirmation after keeping this choice | Draft
The gap stays open, with the surviving material marked.

q2-c-evidence | Result evidence line | Existing
Kept absence visible rather than filling it in.

q2-a | Choice C | Existing
Add a removable reconstruction. I want to try seeing the whole animal.

q2-a-confirm | Confirmation after keeping this choice | Draft
The removable replica is in place.

q2-a-evidence | Result evidence line | Existing
Chose a reversible way to move forward with incomplete information.

q2-r | Choice D | Existing
Let visitors switch between versions. Different views may help different people.

q2-r-confirm | Confirmation after keeping this choice | Draft
The display can now switch between its different views.

q2-r-evidence | Result evidence line | Existing
Made room for different ways of understanding the exhibit.

Q3 Deep Time What gets remembered

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q3-INTRO | Abraham introduction | Draft
These are things people left behind. Footprints, mostly. What would you leave to remember a day by?

~~**Q3-LOOK | Optional inspection instruction | Draft**~~
~~Select a panel to preview it in the empty space.~~

q3 | Question | Existing
You're making a small record of an ordinary day, to be opened years from now. What would you put at its centre?

q3-i | Choice A | Existing
The unanswered question I kept returning to.

q3-i-confirm | Confirmation after keeping this choice | Draft
Your question card is clipped into the record.

q3-i-evidence | Result evidence line | Existing
Kept an unresolved question as the day's central record.

q3-c | Choice B | Existing
A small routine I might otherwise forget.

q3-c-confirm | Confirmation after keeping this choice | Draft
Your routine sketch is clipped into the record.

q3-c-evidence | Result evidence line | Existing
Preserved an easily overlooked part of everyday life.

q3-a | Choice C | Existing
A decision that changed how the day went.

q3-a-confirm | Confirmation after keeping this choice | Draft
Your decision sketch is clipped into the record.

q3-a-evidence | Result evidence line | Existing
Focused on a moment of making a difference.

q3-r | Choice D | Existing
An exchange with someone that stayed with me.

q3-r-confirm | Confirmation after keeping this choice | Draft
Your exchange is clipped into the record.

q3-r-evidence | Result evidence line | Existing
Remembered the day through an interaction.

Q4 Earth and Space The surprise drawer

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q4-INTRO | Abraham introduction | Draft
Go on, open it. I think this is the right drawer.

~~**Q4-LOOK | Optional inspection instruction | Draft**~~
~~Open the drawer and use the magnifier if you like.~~

q4 | Question | Existing
You set aside an afternoon for something familiar. Just as you begin, an unexpected invitation arrives. Both sound good. What do you do?

q4-i | Choice A | Existing
Get a little more detail before deciding which interests me more.

q4-i-confirm | Confirmation after keeping this choice | Draft
The extra information card is open.

q4-i-evidence | Result evidence line | Existing
Sought more context before choosing.

q4-c | Choice B | Existing
Keep the afternoon I planned; suggest another day for the invitation.

q4-c-confirm | Confirmation after keeping this choice | Draft
The original tray stays in view.

q4-c-evidence | Result evidence line | Existing
Protected an existing intention while leaving a future opening.

q4-a | Choice C | Existing
Take the invitation. I can return to my original plan.

q4-a-confirm | Confirmation after keeping this choice | Draft
The second tray is open.

q4-a-evidence | Result evidence line | Existing
Accepted an opportunity while treating the original plan as recoverable.

q4-r | Choice D | Existing
See whether we can combine some of both without making it awkward.

q4-r-confirm | Confirmation after keeping this choice | Draft
Both trays are now side by side.

q4-r-evidence | Result evidence line | Existing
Looked for a workable shared arrangement.

Q5 Earth and Space The next test

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q5-INTRO | Abraham introduction | Draft
We've got enough money to try one of these. Just one, though. Have a look and see what you think.

~~**Q5-LOOK | Optional inspection instruction | Draft**~~
~~Rotate the replica or inspect the proposal cards. This is a fictional testing scenario.~~

q5 | Question | Existing
An unfamiliar specimen could be studied in several ways. There is funding for one next step. Which would you back?

q5-i | Choice A | Existing
A detailed scan: more information, but it may not settle the main question.

q5-i-confirm | Confirmation after keeping this choice | Draft
The scan preview is open.

q5-i-evidence | Result evidence line | Existing
Accepted an incomplete answer in exchange for more evidence.

q5-c | Choice B | Existing
Better storage first: protect the specimen, though the answer will wait.

q5-c-confirm | Confirmation after keeping this choice | Draft
The storage cradle is in place.

q5-c-evidence | Result evidence line | Existing
Protected future options before pursuing an immediate answer.

q5-a | Choice C | Existing
A tiny sample test: a clearer answer, but it permanently uses some material.

q5-a-confirm | Confirmation after keeping this choice | Draft
The sample diagram is open. The display specimen stays intact.

q5-a-evidence | Result evidence line | Existing
Accepted a stated cost for a more decisive next step.

q5-r | Choice D | Existing
A joint study with another museum: shared expertise, but a slower start.

q5-r-confirm | Confirmation after keeping this choice | Draft
The shared-study comparison is open.

q5-r-evidence | Result evidence line | Existing
Chose shared expertise despite a coordination cost.

Q6 Earth and Space Same label different view

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q6-INTRO | Abraham introduction | Draft
Same display, two different descriptions. Hmm. Have a look at both.

~~**Q6-LOOK | Optional inspection instruction | Draft**~~
~~Select either card or compare the specimens side by side.~~

q6 | Question | Existing
You and someone else come away from the same experience with different impressions. What would you most want to do?

q6-i | Choice A | Existing
Compare the particular details each of us noticed.

q6-i-confirm | Confirmation after keeping this choice | Draft
The detail markers connect the two accounts.

q6-i-evidence | Result evidence line | Existing
Explored the observations behind different impressions.

q6-c | Choice B | Existing
Keep both accounts intact; neither needs replacing yet.

q6-c-confirm | Confirmation after keeping this choice | Draft
Both accounts stay on display.

q6-c-evidence | Result evidence line | Existing
Preserved separate accounts without forcing resolution.

q6-a | Choice C | Existing
Try a different approach together and see what happens next.

q6-a-confirm | Confirmation after keeping this choice | Draft
A third viewing angle is available.

q6-a-evidence | Result evidence line | Existing
Used another experience to move beyond the disagreement.

q6-r | Choice D | Existing
Find out why that impression mattered to them.

q6-r-confirm | Confirmation after keeping this choice | Draft
The context card is open.

q6-r-evidence | Result evidence line | Existing
Prioritised the personal significance of another perspective.

Q7 Living Systems Room to change

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q7-INTRO | Abraham introduction | Draft
Here's the old layout, and here's the new one. Take a look. What do you think?

~~**Q7-LOOK | Optional inspection instruction | Draft**~~
~~Select a layout to preview it. There isn't a correct arrangement to find.~~

q7 | Question | Existing
A place you love is being changed. The proposal has real benefits, but it will feel different. What would you speak up for first?

q7-i | Choice A | Existing
A clear account of what the change is meant to improve.

q7-i-confirm | Confirmation after keeping this choice | Draft
The before-and-after notes are visible.

q7-i-evidence | Result evidence line | Existing
Asked for the purpose and evidence behind a change.

q7-c | Choice B | Existing
Keeping one part that makes the place feel like itself.

q7-c-confirm | Confirmation after keeping this choice | Draft
The feature you would keep is highlighted.

q7-c-evidence | Result evidence line | Existing
Protected a specific source of continuity.

q7-a | Choice C | Existing
A trial period so we can experience it before deciding.

q7-a-confirm | Confirmation after keeping this choice | Draft
The trial layout is in place.

q7-a-evidence | Result evidence line | Existing
Favoured a practical, reversible trial.

q7-r | Choice D | Existing
A way for the people who use it to shape the proposal.

q7-r-confirm | Confirmation after keeping this choice | Draft
The participation markers are on the proposal.

q7-r-evidence | Result evidence line | Existing
Prioritised participation by the people affected.

Q8 Living Systems The shared field kit

The question, answer wording and evidence lines are existing. Abraham's introduction and confirmations are drafts. Choice letters and IDs are editorial only.

Q8-INTRO | Abraham introduction | Draft
Everything we need is packed! There's a little space left. Anything you'd like to bring?

~~**Q8-LOOK | Optional inspection instruction | Draft**~~
~~Select an item to preview it in the kit. The basics are already covered.~~

q8 | Question | Existing
A small group has an afternoon to explore somewhere unfamiliar. The basics are covered. What extra would you most want to bring?

q8-i | Choice A | Existing
A field guide, so we can make sense of what we find.

q8-i-confirm | Confirmation after keeping this choice | Draft
The field guide is in the kit.

q8-i-evidence | Result evidence line | Existing
Brought a resource for interpreting discoveries together.

q8-c | Choice B | Existing
A notebook, so details don't disappear when the day ends.

q8-c-confirm | Confirmation after keeping this choice | Draft
The notebook is in the kit.

q8-c-evidence | Result evidence line | Existing
Made room to retain details beyond the moment.

q8-a | Choice C | Existing
A map with a few optional detours marked.

q8-a-confirm | Confirmation after keeping this choice | Draft
The folded map is in the kit.

q8-a-evidence | Result evidence line | Existing
Kept room for self-directed exploration within a usable plan.

q8-r | Choice D | Existing
A shared camera, so everyone can add what caught their eye.

q8-r-confirm | Confirmation after keeping this choice | Draft
The shared camera is in the kit.

q8-r-evidence | Result evidence line | Existing
Chose a shared record that others could shape.

Text inside the interactive displays

These are draft display strings. They describe the fictional interactive exhibits, not documented provenance or visitor testimony.

Q1-DETAIL-01 | Identification overlay | Draft
Compare the visible features before reading the identification.

Q1-DETAIL-02 | Restoration labels | Draft
Original material / Restoration

Q1-DETAIL-03 | Folded explanation controls | Draft
Hide explanation / Show explanation

Q1-DETAIL-04 | Illustrative observation one | Draft
I noticed the curve before the texture.

Q1-DETAIL-05 | Illustrative observation two | Draft
The edge caught my eye first.

Q1-DETAIL-06 | Illustrative observation three | Draft
I wanted to know how much of it was complete.

Q2-PREVIEW | Skeleton display labels | Draft
Possible reconstruction A / Possible reconstruction B / Surviving material / Removable replica / Switch view

Q3-PANELS | Memory panel labels | Draft
A question / A routine / A decision / An exchange

Q4-PREVIEW | Drawer labels | Draft
Original plan / Unexpected invitation / A little more detail / Some of both

Q5-PREVIEW | Testing proposal labels | Draft
Detailed scan / Improved storage / Tiny sample test / Joint study

Q6-CARDS | Illustrative interpretation cards | Draft
One impression: the similarities stood out. / Another impression: the differences stood out.

Q6-PREVIEW | Comparison controls | Draft
Compare details / Keep both accounts / Try another view / Read the context

Q7-PREVIEW | Habitat labels | Draft
Before / Proposed change / Keep this feature / Trial layout / Visitor suggestions

Q8-PREVIEW | Field kit labels | Draft
Field guide / Notebook / Map with optional detours / Shared camera

The final choice and reflection

FINAL-01 | Abraham before the final choice | Draft
All eight! Now, before your appraisal—was there something you were hoping to find here?

~~**q9 | Final question | Existing**~~
~~Before your exhibit is revealed, which would you most want this visit to have given you?~~

q9-i | Final choice option | Existing
A better understanding of something I hadn't quite grasped.

q9-c | Final choice option | Existing
Something worth remembering and coming back to.

q9-a | Final choice option | Existing
A new possibility I want to try for myself.

q9-r | Final choice option | Existing
Something I want to share or talk through with someone.

q9-none | Final choice option | Existing
No preference / I'm not sure.

About the specimen

RESULT-16 | Label clarification | Draft
The specimen is a creative comparison. Its natural history isn’t evidence about your personality.

RESULT-17 | Action buttons | Draft
Save result card / Share result / Review answers / Keep exploring / Start again

RESULT-18 | Evidence assembly | Editorial
Use three different answered stops. Copy the selected answer and its matching evidence line from the question pages. Include a fourth, contrasting choice when it helps. Never fill these slots with invented choices.

RESULT-19 | Contrary evidence template | Dynamic
At {stop_title}, you also chose “{exact_answer_text}”. This result describes a pattern, not every choice you made.

RESULT-20 | Close result template | Dynamic
{third_priority_plain_phrase} also appeared in your choices, so this is a close match rather than a clear separation.

Ammonite fossil

All introductions and result outline lines are existing. The linking paragraph, short label and share sentence are drafts. Use only the introduction that applies.

VISIT-IC-TITLE | Result name | Existing
Ammonite fossil

VISIT-IC-CODE | Fictional visit catalogue code | Existing
VISIT-IC

VISIT-IC-BALANCED-INTRO | Standard introduction | Existing
You tended to look for the explanation while keeping sight of what was already there.

VISIT-IC-I-LEADING | Alternative introduction when understanding leads | Existing
Understanding came first; keeping the original context helped you get there.

VISIT-IC-C-LEADING | Alternative introduction when preserving context leads | Existing
You kept hold of context, and wanted enough understanding to preserve it thoughtfully.

VISIT-IC-STRENGTHS | Strengths | Existing
retaining useful context; checking the basis of an explanation.

VISIT-IC-TENSION | Tension | Existing
you may keep investigating or preserving something after you have enough to move on.

VISIT-IC-COMPLEMENT | Complement | Existing
a small, reversible experiment can give your careful thinking somewhere to go.

VISIT-IC-FRICTION | Friction | Existing
rapid changes without an explanation may be harder to accept than the change itself.

VISIT-IC-CLOSING | Closing | Existing
What would count as enough information to take the next step?

VISIT-IC-PATTERN | Authored linking paragraph | Draft
In this visit, understanding and keeping useful context often appeared together. Your specimen is a way of holding those two concerns in view. It doesn’t mean you have to keep every detail or wait for a complete explanation before acting.

VISIT-IC-LABEL | Short museum label | Draft
A stylised ammonite fossil display, shown partly exposed in its surrounding stone. This is an illustrative replica; no specific collection provenance is claimed.

VISIT-IC-SHARE | Share card sentence | Draft
You tended to look for the explanation while keeping sight of what was already there.

Cut meteorite

All introductions and result outline lines are existing. The linking paragraph, short label and share sentence are drafts. Use only the introduction that applies.

VISIT-IA-TITLE | Result name | Existing
Cut meteorite

VISIT-IA-CODE | Fictional visit catalogue code | Existing
VISIT-IA

VISIT-IA-BALANCED-INTRO | Standard introduction | Existing
You wanted to understand things by getting a closer look and trying something with what you learned.

VISIT-IA-I-LEADING | Alternative introduction when understanding leads | Existing
You wanted a sound explanation, with room to test it rather than leave it on the label.

VISIT-IA-A-LEADING | Alternative introduction when taking action leads | Existing
You preferred to move things forward, using new information to choose your next move.

VISIT-IA-STRENGTHS | Strengths | Existing
questioning assumptions; turning curiosity into a next step.

VISIT-IA-TENSION | Tension | Existing
the next question or experiment may pull you away before the current one is settled.

VISIT-IA-COMPLEMENT | Complement | Existing
someone who records decisions and follows through can help discoveries accumulate.

VISIT-IA-FRICTION | Friction | Existing
rules that block both explanation and experimentation may frustrate you.

VISIT-IA-CLOSING | Closing | Existing
Which possibility would you actually stay with long enough to learn from?

VISIT-IA-PATTERN | Authored linking paragraph | Draft
In this visit, finding out and doing something with the answer often belonged together. The match reflects that connection. It leaves room for the moments when you preferred to pause, preserve something or hear another view.

VISIT-IA-LABEL | Short museum label | Draft
A stylised cut meteorite display with an exterior and an exposed interior. This is an illustrative replica; no specific collection provenance is claimed.

VISIT-IA-SHARE | Share card sentence | Draft
You wanted to understand things by getting a closer look and trying something with what you learned.

Lichen on a branch

All introductions and result outline lines are existing. The linking paragraph, short label and share sentence are drafts. Use only the introduction that applies.

VISIT-IR-TITLE | Result name | Existing
Lichen on a branch

VISIT-IR-CODE | Fictional visit catalogue code | Existing
VISIT-IR

VISIT-IR-BALANCED-INTRO | Standard introduction | Existing
You often wanted to understand a thing through the perspectives and connections around it.

VISIT-IR-I-LEADING | Alternative introduction when understanding leads | Existing
You sought a fuller explanation, and other perspectives were part of the evidence.

VISIT-IR-R-LEADING | Alternative introduction when shared participation leads | Existing
Understanding other perspectives mattered, even when it complicated your first impression.

VISIT-IR-STRENGTHS | Strengths | Existing
comparing perspectives; making explanations easier to share.

VISIT-IR-TENSION | Tension | Existing
you may make room for so many interpretations that your own becomes difficult to state.

VISIT-IR-COMPLEMENT | Complement | Existing
a clear personal position can give the conversation something concrete to work with.

VISIT-IR-FRICTION | Friction | Existing
being pushed to agree before the different views have been heard.

VISIT-IR-CLOSING | Closing | Existing
After hearing everyone else, what is your own best reading?

VISIT-IR-PATTERN | Authored linking paragraph | Draft
In this visit, explanation often included someone else’s perspective. This match brings together the wish to understand and the wish to make that understanding shareable. It doesn’t tell us how outgoing you are.

VISIT-IR-LABEL | Short museum label | Draft
A stylised branch with lichen, shown with a magnified detail. This is an illustrative replica; no specific collection provenance is claimed.

VISIT-IR-SHARE | Share card sentence | Draft
You often wanted to understand a thing through the perspectives and connections around it.

Quartz cluster

All introductions and result outline lines are existing. The linking paragraph, short label and share sentence are drafts. Use only the introduction that applies.

VISIT-CA-TITLE | Result name | Existing
Quartz cluster

VISIT-CA-CODE | Fictional visit catalogue code | Existing
VISIT-CA

VISIT-CA-BALANCED-INTRO | Standard introduction | Existing
You wanted room to make a change without losing everything useful underneath it.

VISIT-CA-C-LEADING | Alternative introduction when preserving context leads | Existing
Keeping a dependable base mattered; changes felt worthwhile when they could build on it.

VISIT-CA-A-LEADING | Alternative introduction when taking action leads | Existing
You wanted to act, while keeping a way to revise or return.

VISIT-CA-STRENGTHS | Strengths | Existing
workable continuity; reversible, practical changes.

VISIT-CA-TENSION | Tension | Existing
you may prefer changes you can control and postpone ones that require a less tidy transition.

VISIT-CA-COMPLEMENT | Complement | Existing
an outside question can reveal which familiar constraints are still necessary.

VISIT-CA-FRICTION | Friction | Existing
being asked to choose between total preservation and starting from nothing.

VISIT-CA-CLOSING | Closing | Existing
Which part really needs to stay, and which part is simply familiar?

VISIT-CA-PATTERN | Authored linking paragraph | Draft
In this visit, making changes often went alongside keeping something useful in place. The match reflects that combination. It doesn’t mean every change must be reversible, or that everything familiar needs protecting.

VISIT-CA-LABEL | Short museum label | Draft
A stylised cluster of quartz crystals on a rough base. This is an illustrative replica; no specific collection provenance is claimed.

VISIT-CA-SHARE | Share card sentence | Draft
You wanted room to make a change without losing everything useful underneath it.

Branching coral skeleton

All introductions and result outline lines are existing. The linking paragraph, short label and share sentence are drafts. Use only the introduction that applies.

VISIT-CR-TITLE | Result name | Existing
Branching coral skeleton

VISIT-CR-CODE | Fictional visit catalogue code | Existing
VISIT-CR

VISIT-CR-BALANCED-INTRO | Standard introduction | Existing
You returned to what lets people keep sharing something that matters.

VISIT-CR-C-LEADING | Alternative introduction when preserving context leads | Existing
You protected continuity, especially where other people relied on it.

VISIT-CR-R-LEADING | Alternative introduction when shared participation leads | Existing
You made room for others while trying to keep something dependable between you.

VISIT-CR-STRENGTHS | Strengths | Existing
remembering shared context; maintaining things others can rely on.

VISIT-CR-TENSION | Tension | Existing
keeping a shared arrangement going can turn into work you never agreed to carry alone.

VISIT-CR-COMPLEMENT | Complement | Existing
clear boundaries can protect the continuity you care about.

VISIT-CR-FRICTION | Friction | Existing
changes that treat existing commitments as disposable.

VISIT-CR-CLOSING | Closing | Existing
What are you willing to maintain—and what needs to be shared?

VISIT-CR-PATTERN | Authored linking paragraph | Draft
In this visit, what lasted and what people shared often mattered together. This match reflects attention to both. It doesn’t make you responsible for maintaining every arrangement or meeting every expectation.

VISIT-CR-LABEL | Short museum label | Draft
A stylised branching coral skeleton display. This is an illustrative replica; no specific collection provenance is claimed.

VISIT-CR-SHARE | Share card sentence | Draft
You returned to what lets people keep sharing something that matters.

Winged maple fruit

All introductions and result outline lines are existing. The linking paragraph, short label and share sentence are drafts. Use only the introduction that applies.

VISIT-AR-TITLE | Result name | Existing
Winged maple fruit

VISIT-AR-CODE | Fictional visit catalogue code | Existing
VISIT-AR

VISIT-AR-BALANCED-INTRO | Standard introduction | Existing
You looked for ways to move forward that left other people room to participate.

VISIT-AR-A-LEADING | Alternative introduction when taking action leads | Existing
You wanted a next step, and preferred one others could help shape.

VISIT-AR-R-LEADING | Alternative introduction when shared participation leads | Existing
Participation mattered, but you also wanted it to lead somewhere.

VISIT-AR-STRENGTHS | Strengths | Existing
opening possibilities; inviting others into action.

VISIT-AR-TENSION | Tension | Existing
accommodating everyone while keeping things moving may leave your own preference unclear.

VISIT-AR-COMPLEMENT | Complement | Existing
a clearly stated constraint can make a shared plan easier to finish.

VISIT-AR-FRICTION | Friction | Existing
plans that are either rigidly imposed or discussed without ever becoming a decision.

VISIT-AR-CLOSING | Closing | Existing
What would you choose if you didn't first have to make it work for everyone?

VISIT-AR-PATTERN | Authored linking paragraph | Draft
In this visit, a next step often mattered alongside room for other people to take part. This match brings those concerns together. It doesn’t mean you must include everyone in every decision.

VISIT-AR-LABEL | Short museum label | Draft
A stylised botanical display of paired winged maple fruits. This is an illustrative replica; no specific collection provenance is claimed.

VISIT-AR-SHARE | Share card sentence | Draft
You looked for ways to move forward that left other people room to participate.

Mixed result

VISIT-MX-TITLE | Result title | Existing
Comparative study tray

VISIT-MX-CODE | Fictional visit catalogue code | Existing
VISIT-MX

VISIT-MX-INTRO | Standard opening | Existing
Your choices didn't settle into one clear specimen. Different situations brought different priorities forward.

VISIT-MX-CONTEXT | Explanation | Existing
This could reflect context, overlapping priorities, or simply options that weren't quite right for you.

VISIT-MX-LEAD | Alternative opening when one concern clearly leads | Dynamic
Your visit repeatedly favoured {leading_concern}, but didn't settle on one clear second priority.

VISIT-MX-LEAD-VALUES | Allowed leading concern wording | Existing
understanding / continuity / room to act / shared participation

VISIT-MX-EVIDENCE | Evidence section | Dynamic
Three choices to look back at
{three_real_choice_entries}

VISIT-MX-STRENGTH | What the record can show | Draft
The useful part is in the choices themselves. You can compare what mattered in each situation without forcing them into one description.

VISIT-MX-TENSION | Limitation | Draft
This visit doesn’t give us a clear single match. The options may also have missed some of your reasons.

VISIT-MX-CLOSING | Closing question | Draft
Which choice feels most like you, and which was mostly about the situation?

VISIT-MX-ABRAHAM | Abraham ending | Draft
Hmm. I can’t quite pick one from these choices. I’ve put them together in a little tray for you.

VISIT-MX-ACTIONS | Actions | Draft
Review choices / Keep this result / Start again

VISIT-MX-LABEL | Museum label | Draft
A comparative study tray containing several small display objects.

VISIT-MX-SHARE | Share sentence | Draft
My visit brought different priorities forward, so I left with a study tray rather than one specimen.

Abraham help and optional lines

AB-HELP-01 | How the quiz works | Draft
Pick what feels closest to you at each stop. You can change your mind! I only use the choices on your ticket for the appraisal.

AB-HELP-02 | Where to go | Draft
Anywhere you like! Deep Time is on the left, Earth & Space is on the right, and Living Systems is straight ahead.

AB-HELP-03 | No right answers | Draft
Oh, you don’t need to know all the names. That’s what the labels are for!

AB-HELP-04 | Does wandering count | Draft
Oh, no. Have a good look around! I only use the choices on your ticket.

AB-HELP-05 | Can I change my mind | Draft
Of course! Open your ticket and pick the stop you’d like to go back to. We’ll use your new answer.

AB-HELP-06 | Can I skip | Draft
Of course. You can leave that one for now and come back before your appraisal.

AB-HELP-07 | Is the result scientific | Draft
It’s a little comparison based on your choices here. It isn’t a scientific test, and you don’t have to agree with it.

AB-HELP-08 | Unknown museum fact | Draft
Hmm, I don’t know that one. I’d need to check.

AB-AMBIENT-01 | At the desk | Draft
Now, where did I put my pencil? Oh. Here it is.

AB-AMBIENT-02 | Near the bench | Draft
You can sit here if you like. I’ll keep you company.

AB-AMBIENT-03 | Leaving the museum | Draft
Bye, then! It was lovely having you here. Come and see me again sometime.

AB-HELP-09 | If directly asked whether Abraham is AI | Existing
Yes, I’m an AI-powered hamster! Our chats don’t affect your appraisal. Only the choices on your ticket do.

AB-HELP-10 | Trigger note | Editorial
Abraham is available whenever the visitor taps him or the persistent portrait. Use these authored help lines as fallbacks for companion chat. Ambient lines are optional; do not repeat them frequently or judge a quiz answer.

Abraham optional conversations

ENTRY-14 | Name left empty | Draft
No name? Let’s see… Item-09. There! You can tell me if you think of something you like better.

AB-DREAM-01 | Asked why the clock goes backwards | Draft
Oh, it does that. You haven’t missed anything—we’re still open.

AB-DREAM-02 | Looking inside the drawer of stars | Draft
Yes! Mind your sleeves. They’re quite difficult to get out.

AB-DREAM-03 | Visitor says the museum is creepy | Draft
Is it? Would you like me to come with you?

AB-DREAM-04 | Floating accession labels | Draft
Those go by the minerals. I’ll put them back when they come down.

AB-DREAM-05 | Hovering meteorite | Draft
Oh, you can see underneath it now! That’s handy.

AB-DREAM-06 | Drifting leaves | Draft
Mind your head. They tickle if they get in your ears.

AB-CHAT-01 | Visitor taps Abraham | Draft
Oh, hello! What can I help you with?

AB-CHAT-02 | Casual conversation | Draft
I found my pencil! It was right here the whole time. What have you been looking at?

AB-DREAM-NOTE | Dialogue direction | Editorial
These lines are optional fictional museum dialogue. Use only for the matching scene or visitor message. The offer of company is a conversation line, not an implemented follow-player action. Do not promise movement unless the game supports it.

Editable guidance for personalised dialogue

This page controls the style of variable AI copy. It is not dialogue shown to the player.

VOICE-01 | Voice | Editorial
Abraham is a friendly, earnest little hamster who considers the museum a perfectly normal place to work. He notices its peculiarities but rarely recognises their unsettling implications. He speaks simply and casually, takes small practical concerns seriously, and wants visitors to feel welcome. His warmth is sincere; he isn't secretly teasing the visitor or delivering knowing hints.

VOICE-02 | Response length | Editorial
Most replies are one to three short sentences. Use contractions and concrete words. A small "Oh!", "Hmm" or "Let's see" can sound spontaneous, but vary the openings. Not every line needs a joke, hesitation or exclamation.

VOICE-03 | Evidence | Editorial
Refer only to the choices supplied from this visit. Do not infer personality from the route, timing, accessibility settings or decorative inspection. Do not invent a reason the visitor has not supplied.

VOICE-04 | Reflection boundary | Editorial
Acknowledge one optional clarification. Do not ask a follow-up question or change the selected specimen.

VOICE-05 | Result structure | Editorial
Keep the supplied specimen name. Write a short introduction, connect three actual choices, name two strengths and one believable tension, suggest a complementary approach, and close with one reflection. Use the authored result outline as the boundary.

VOICE-06 | Useful wording | Editorial
Prefer "Oh, I see", "Have a look", "What should I call you?" and simple references to an actual choice. Describe things Abraham can point to: tickets, drawers, labels and specimens. Keep assessment explanations on the result card; do not make every conversation sound like a report.

VOICE-07 | Wording to avoid | Editorial
Avoid "This proves", "You always", "You clearly value", "According to my analysis" and therapist-like acknowledgements such as "That's useful to notice". No baby talk, constant snack jokes, elaborate metaphors or knowing warnings. He must not imply he has sinister knowledge of the visitor.

VOICE-08 | Tone across the visit | Editorial
Be welcoming from the first meeting, then become more familiar naturally. Abraham's friendliness does not depend on quiz choices. He can fail to notice that a room feels creepy while noticing that the visitor wants company. If someone is genuinely upset, listen and respond kindly; do not keep making jokes.

VOICE-09 | Result limits | Editorial
The specimen is a playful comparison. Do not diagnose, imply scientific validation, claim permanent personality knowledge or say the museum collects people.

VOICE-10 | If personalisation fails | Editorial
Use the authored specimen introduction, real evidence lines, strengths, tension, complement, friction and closing question. Do not leave the visitor with only a specimen name.

VOICE-11 | Animation direction | Editorial
Neutral is the default expression. Curious or delighted may accompany suitable dialogue; worried must not signal that a quiz choice was bad. These directions describe presentation, not words for Abraham to say.
